

THE WASHINGTON STATE BOARD OF EDUCATION

A high-quality education system that prepares all students for college, career, and life.

Align Educator Compensation Systems with New Credentialing Policies and Address Educator Shortages

Joint Priority with Professional Educator Standards Board

ESHB 2261 (2009) directed the development of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and a plan for implementation. In its 2013 report the Quality Education Council proposed a new career ladder model for educator compensation, linked to the two levels of certification defined by the Professional Educator Standards Board, with recognition of experience, degree attainment and National Board certification, but significantly fewer “steps” than the current schedule. The Board urges the Legislature to adopt legislation that aligns the new system of professional certification with a new model of professional compensation. The Board also asks the Legislature to support systemic measures proposed by the Professional Educator Standards Board and the Superintendent of Public Instruction, in partnership with school districts, Educational Service Districts, and higher education, to address a persistent and multifaceted problem of educator shortages.
