

## Summary of changes made to Chapter 180-51 WAC in DRAFT rules

Revisions of the graduation requirements chapter were made through the development of DRAFT rules to implement:

- [E2SHB 1599](#)
  - Graduation Pathways
  - Automatic awarding of credit for high school level courses taken prior to high school
  - 2-credit waiver for individual students for “unusual” circumstances—removing “unusual”
  - Updates to the High School and Beyond Plan
- [SSH B 1896](#) for Civics Education
- [ESHB 2224](#) and [SHB 2686](#) that included updates to the High School and Beyond Plan
- Updates to align with statute and with practice

Changes to chapter made in the DRAFT rules:

- Reorganize the chapter
  - Consolidating previous graduation requirements for cohorts of students who are now adults
  - Striking some sections of the chapter that are redundant
  - Adding four new sections of the chapter
    - An overview of new graduation requirements beginning for the Class of 2020, and,
    - New sections on credit graduation requirements, the High School and Beyond Plan, and graduation pathways; these three new sections coincide with the three broad requirements of the Washington high school diploma
- Amend language to clarify, removing references to outdated statute or rules, updating language, for example:
  - Replaced references to “essential academic learning requirements” with learning standards
  - Replacing “vocational” with “career and technical education”
  - Replacing “fitness” with “physical education” (PE)
- Clarify the relationship between expected graduation year and graduation requirements associated with a ninth-grade cohort. These changes were made to conform with practice.
- Clarify the math credit graduation requirement for students who earned high school credit in math prior to high school, reflecting current practice and current guidance.
  - Prescriptive language about the order that high school mathematics courses should be taken in is removed.
  - Update to align with students automatically earning credit for high school level courses taken before high school.
- Separate out health and PE—specifying half a credit of health and one and a half credits of PE; this change was requested by OSPI, and reflects common practice.
- Remove reference to non-CTE courses locally determined to be equivalent to CTE courses—this does not make sense and there should be no such courses.
- Remove references to expired waivers.

- Adds the requirement of RCW 28A.320.170 (districts shall incorporate history, culture and government of nearest Indian tribe).

New sections:

- Established a new credit section for the Class of 2021 (WAC 180-51-210) and updated WAC 180-51-067 and WAC 180-51-068:
  - Added definitions for core and flexible credits to WAC 180-51-210.
  - Separates out core credits and flexible credits in the list of credit and subject area graduation requirements in WAC 180-51-210.
  - Add “or its equivalent” to required social studies course names.
  - Added Civics as a stand-alone course for the classes of 2024 and beyond
- The new HSBP section (WAC 180-51-220)
  - Reorganizes the requirements of statute for clarity.
- The ad hoc committee recommended reviewing at a later date two sections of the graduation requirements chapter: WAC 180-51-015 and WAC 180-51-053. These two sections involve high school diploma programs at community and technical colleges. The committee felt that further work needed to be done in collaboration with our partners to make sure changes to these rules best support these programs.
