

APPLICATION Temporary Waiver from High School Graduation Requirements Under Chapter 217, Laws of 2014

Instructions

RCW 28A.230.090(1)(d)(ii) authorizes school districts to apply to the State Board of Education (SBE) for a temporary waiver from the career and college ready graduation requirements directed by Chapter 217, Laws of 2014 (E2SSB 6552) beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. This law further provides:

“In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(d) to an applying school district at the next subsequent meeting of the board after receiving an application.”

The SBE has adopted rules to implement this provision as WAC 180-51-068(11). The rules provide that the SBE must post an application form on its public web site for use by school districts. The rules further provide:

- The application must be accompanied by a resolution adopted by the district’s board of directors requesting the waiver. The resolution must, at a minimum:
 1. State the entering freshman class or classes for whom the waiver is requested;
 2. Be signed by the chair or president of the board of directors and the superintendent.
- A district implementing a waiver granted by the SBE under this law will continue to be subject to the prior high school graduation requirements as specified in WAC 180-51-067 during the school year or years for which the waiver has been granted.
- A district granted a waiver under this law that elects to implement the career and college ready graduation requirements in WAC 180-51-068 during the period for which the waiver is granted shall provide notification of that decision to the SBE.

3. Date of application: **May 2, 2016**

4. Please explain why the district is requesting a waiver to delay implementation of career and college ready graduation requirements in WAC 180-51-068.

The Okanogan Alternative Schools need additional time to prepare for planning, staffing, course offerings and scheduling to meet full implementation of the new graduation requirements.

Delaying the implementation of new career and college ready graduation requirements allows further time to provide necessary professional development for counseling staff. Our staff needs to have an in-depth understanding of 24-credit college and career ready graduation requirements, as well as time to design and incorporate systems of support.

5. Please describe the specific impediments preventing implementation of the career and college ready graduation requirements beginning with the graduating class of 2019.

Okanogan Alternative Schools believe that extra time and funding are needed to develop additional credit opportunities for students and to find appropriate programs to implement for students to avoid credit loss. Time is needed to bridge the gap between staff, counseling services and implementation of the Personal Pathway Plan. Time and resources are also needed to develop appropriate practices and a credit retrieval program. Due to building codes, only 6 individuals can be in our current facility at one time, severely affecting any group work/classes/counseling.

The Okanogan Alternative Schools are in the process of securing a new facility that will help us address the increase of staff and increase class offerings related to new requirements.

Staff are in the process of developing CTE courses to meet Pathway requirements and develop equivalency credits.

Develop and implement a professional development plan for counselors and instructional staff to better understand student options and requirements.

4. Please explain why the district is requesting a waiver to delay implementation of career and college ready graduation requirements in WAC 180-51-068.

Centralia School District is requesting a waiver to delay implementation of career and college ready graduation requirements to allow more time to implement a comprehensive solution providing for increased credit opportunities for our students.

5. Please describe the specific impediments preventing implementation of the career and college ready graduation requirements beginning with the graduating class of 2019.

The specific impediments currently influencing our decision to apply for this waiver are staffing needs, classroom space and comprehensive professional development for PPR implementation, a possible change in the format of the CHS master/bell schedule and budgetary implications.

6. Please indicate below the graduating class for which the district will first implement the career and college ready graduation requirements.

_____ Class of 2020

__**XXX**__ Class of 2021

7. Please describe the efforts that will be undertaken to achieve implementation of the career and college ready graduation requirements for the graduating class indicated above.

The following represent areas the new graduation requirements impact the Centralia School District along with a brief explanation of implementation plans:

1. **Bell Schedule Review:** *We have formed a new committee, Class of 2019, tasked with reviewing block periods, trimesters, and hybrid schedules. One of the committee's goal is to select the best bell schedule to ensure all students can pursue their personalized pathway while receiving an equitable opportunity to earn 24 credits.*

2. **Personal Pathway Requirement (PPR) Troubleshooting:** Over the next two years we are making logistical and philosophical changes to our fall & spring parent conferences allowing us to coordinate meaningful meetings with 1000+ students, their parents/guardians, teachers, counselors, and their advisory teacher. We are also implementing use of High School & Beyond module in My School Data to track the more complex PPR.
3. **New Course Offerings:** Our research has shown that some of the early adopters of the new graduation requirements have created 30-40 new courses in a single year. Our site leadership team and Instructional Materials Review Committee (IMRC) is looking at the process needed to review and adopt courses in order to meet this unusual demand.
4. **Communication:** This waiver will allow us to improve the communication to students, parents, teachers, and community about the new graduation requirements and their impact. One proposal to improve communication is to use the first week of school to communicate with grade levels about the new graduation requirements, reinforce schoolwide rules, procedures, and routines.
5. **Aligning Advisory Curriculum:** We have created an advisory (NAV/TSI) committee that is in the process of updating our curriculum for our advisory course to reflect the requirements and spirit behind the new graduation requirements.
6. **Facility Needs:** Our District is looking to run a bond in February that would allow us to house more teachers that would be needed for the new graduation requirements. We have also applied for the K-12 STEM Grant Program proposing to build a CSD STEM building. This potential building would also help relieve pressure on our existing facility as we currently do not have enough classroom space to accommodate the additional needs of increased science courses. This waiver is an essential first step to this process to make sure we can run and pass a bond to update our 45+ year old buildings.
7. **Staffing Needs:** The increase of Science and Foreign Language requirements are two examples of where we will need to increase our staffing. We are currently developing curriculum for a pilot Earth Science with the intent of employing a teacher full-time to teach Earth Science. This waiver allows us a couple years to implement and troubleshoot these courses before they will be high stakes courses for students.
8. **Budget Impacts:** This waiver is essential to gain a greater understanding and develop a plan of the many possible budget impacts of this requirement. The possible budget impacts are significant, for example, curriculum and materials for new courses, additional staffing, consequences of master schedule changes, student management systems, professional development, etc. As decisions are made in all of the various areas we will develop a master budget impact document to assist with decision making.
9. **Professional Development:** There will be professional development needs as decisions are made. Needs might include: training for best practices for teaching longer class periods, technology (student management program) training, content training for new courses being taught, etc.

Final step

Please attach the district resolution required by WAC 180-51-068, signed and dated by the chair or president of the board of directors and the district superintendent.

THE WASHINGTON STATE BOARD OF EDUCATION

A high-quality education system that prepares all students for college, career, and life.

INTERPRETIVE STATEMENT DISTRICT-WIDE ANNUAL AVERAGE INSTRUCTIONAL HOURS

The state has made a series of changes to minimum instructional hours for basic education:

- ESHB 2261 (2009 Legislative Session) increased instructional hour requirements from a district-wide annual average 1,000 instructional hours in grades 1-12 to 1,080 instructional hours in each of grades 7-12 and 1,000 instructional hours in grades 1-6, on an implementation schedule adopted by the Legislature.
- The 2013-15 operating budget act (2013 Legislative Session) implemented the instructional hour requirements of ESHB 2261, effective with the 2014-15 school year.
- E2SSB 6552 (2014 Legislative Session) revised the instructional hour requirements of ESHB 2261, as implemented in 2013, to a district-wide annual average 1,080 hours in grades 9-12 and a district-wide annual average 1,000 hours in grades 1-8, while providing that the whole may be calculated as a district-wide average over grades 1-12, effective with the 2015-16 school year.

Incorporating the change made by the 2014 legislation, RCW 28A.150.220 (Basic education – Minimum instructional requirements) now provides, in relevant part:

(2) Each school district shall make available to students the following minimum instructional offering each school year:

(a) For students enrolled in grades one through twelve, at least a district-wide annual average of one thousand hours, which shall be increased beginning in the 2015-16 school year to at least one thousand eighty instructional hours for students enrolled in grades nine through twelve and at least one thousand instructional hours for students in grades one through eight, all of which may be calculated by a school district using a district-wide annual average of instructional hours over grades one through twelve;

The State Board of Education (SBE) implemented this provision as WAC 189-16-200, filed September 2014:

Total instructional hour requirement.

(1) Kindergarten total instructional hour requirement - Four hundred fifty hours annual minimum, increased to an annual minimum one thousand instructional hours according to an implementation schedule under RCW [28A.150.315](#).

(2) Grades 1-12 total instructional hour requirement - District-wide annual average of one thousand hours, increased beginning in the 2015-16 school year to:

(a) At least a district-wide average of one thousand eighty instructional hours for students enrolled in grades nine through twelve and a district-wide annual average of one thousand instructional hours in grades one through eight; or

(b) A district-wide annual average of one thousand twenty-seven instructional hours in grades one through twelve . . .

(3) For nonhigh school districts, a district-wide annual average of one thousand instructional hours in such grades as are offered by the district.

The change made by E2SSB 6552 in 2014 is significant not only for changing the number of instructional hours required by grade span, but for returning to a district-wide annual average in place of minimum required offerings in *each grade*.

This change, as made in the new law, has given rise to questions to the SBE from district personnel as to how to make the calculation of district-wide annual average instructional hours. Specifically, what does “district-wide annual average” mean in the context of an individual district?

“District-wide annual average” is not defined in current statute or rule. Nor was it defined in prior law. So the problem is not a new one; it has just gained more interest as the state has changed instructional hour requirements for basic education.

The SBE recognizes that there is more than one method for calculating a district-wide annual average of instructional hours offered by a district in any school year, and that different calculations, starting from the same data, may produce different results. For example, a district that operates one or more small alternative schools offering relatively fewer instructional hours may be unable to achieve a district-wide average of 1,027 hours in grades 1-12 in a straight calculation of average hours in the district by school. But that same district may be well able to show compliance if the calculation is made as the average of all the instructional hours offered by the district without regard to the schools that students attend.

To illustrate the variability of results by method of calculation, we offer the following example. Schools and enrollments are those of an actual Washington district. The instructional hours shown were chosen for illustrative purposes, but are well within the plausible.

Average by School		
	Student Count	Inst. Hours
School		
Alternative school	22	910
Jr.-Sr. High School	258	1,070
Elementary School	319	1,000
Total	599	2,980
District-Wide Annual Average		993

Weighted Average by Student Across Schools			
School	Student Count	Inst. Hours	Total Inst. Hrs.
Alternative school	22	910	20,020
Jr.-Sr. High School	258	1,070	276,060
Elementary School	319	1,000	319,000
Total	599	2,980	615,080
District-Wide Annual Average			1,027

In the first calculation the district falls short of meeting instructional hour requirements as established in RCW 28A.150.220 (2) and implemented by WAC 180-16-200. In the second, however, it achieves compliance.

The Board also recognizes that districts may differ in school organization and the choices they make in delivery of basic education services, based on local needs, circumstances, and educational philosophy, and that the choices they make should not be driven by a prescribed method of calculating instructional hours for basic education compliance, unless such method can be shown to reflect a specific legislative intent. The Board does not find in RCW 28A.150.200 a legislative intent prescribing or favoring a specific method of calculating district-wide annual instructional hours.

Given the many inquiries the Board has had on this subject, and the lack of a clear basis for rule adoption on it, the Board proposes issuing an interpretive statement under RCW 34.05.230 (Interpretive and policy statements) to offer guidance to districts in addressing this question.

An “interpretive statement” is a written expression of the opinion of an agency as to the meaning of a statute or other provision of law, of a court decision, or of an agency order. (RCW 28A.34.010 (8)) An interpretive statement is advisory only.

The Board advises that the following calculations of annual district-wide average are consistent with the intent of RCW 28A.150.220 and valid for assuring basic education program compliance under RCW 28A.150.250:

- A. **Average of schools.** Average of annual instructional hours offered by each school operated by the school district.
- B. **Weighted average by student across schools.** Average of all annual instructional hours offered to all students enrolled in the district, regardless of school attended.

The Board recognizes that there may be nuances to each of these methods, and that there may be other, mathematically valid methods consistent with the intent of basic education law. A school district may present other methods of calculating district-wide average instructional hours to the SBE before the beginning of the school year for its consideration in assuring basic education program compliance under RCW 28A.150.250.

Comments on this proposed interpretive statement may be addressed to:

RE: Approval of Schools for 2016–17 School Year

Attached is the listing of schools that have submitted renewal applications for the 2016–17 school year. Additional schools that have not yet applied will be submitted for approval at the Board's July meeting.

Included in the listing of schools to be approved are 15 new schools. This is down slightly from the number of new schools that applied for approval for the 2015–16 year (18 applications).

Two schools that applied in April are not included in the listing. During review, OSPI identified major deviations concerning these schools; they are being given an opportunity to address those deviations prior to submission for approval at the July State Board Meeting.

OSPI recommends State Board of Education approval of the schools on the attached listing.

THE WASHINGTON STATE BOARD OF EDUCATION

A high-quality education system that prepares all students for college, career, and life.

APPROVAL OF PRIVATE SCHOOLS FOR 2015–16

Policy Consideration

Approval of Private Schools under RCW 28A.195.040 and Chapter 180-90 WAC at the May 11–12, 2016, Washington State Board of Education meeting.

Summary

Approval of Private Schools for the 2016–17 School Year.

Background

Each private school seeking State Board of Education approval is required to submit an application to the Office of Superintendent of Public Instruction. The application materials include a State Standards Certificate of Compliance and documents verifying that the school meets the criteria for approval established by statute and regulations.

Actual student enrollment, number of teachers, and the teacher preparation characteristics will be reported to OSPI in October. This report generates the teacher/student ratio for both the school and extension programs. Pre-school enrollment is collected for information purposes only.

Private schools may provide a service to the home school community through an extension program subject to the provisions of Chapter 28A.195 RCW. These students are counted for state purposes as private school students.

Action
