

The Washington State **BOARD OF EDUCATION**

Phishing Scam Alert - September 10, 2024

Many schools have received a **phishing scam email** that appears to be from the State Board of Education threatening to revoke your “license” if you do not respond within 24 hours. (Note that the SBE does not license, but instead approves schools.)

Do not click on that email. Please also alert anyone in your organization who may have received it to **delete and report it to your email server**.

If you have any questions, contact the [Private Schools Manager](#)
